

TECHNOLOGY STUDENT ASSOCIATION WORK LOG				
Date	Task	Time involved	Team member responsible (student initials)	Comments
1. 4/7	Brainstorming	1 Hour	TB, CE	Team members talked about the tasked problem and what resources were available to the community at the time and how we could obtain a list of them.
2. 4/10	Discussing UI/UX	3.5 Hours	TB,CE	The main idea thrown around was simple is better in this situation. The less there is for a end user to mess around with, the better experience less tech savvy users will have.
3. 4/19	Create Prototype Designs	2 Hours	TB,CE	We create sketches of what we wanted the website to look like, and what kind of themes we wanted to base it off of. We decided to go with a "Apple" like vibe, where things are simple and minimalist.
4. 5/1	Program Final Solution	5 Hours	TB	This time was spent working on the programming of our final website.
5. 5/2	Program Final Solution	5 Hours	TB	This time was spent working on the programming of our final website.
6. 5/3	Evaluate Solution & Bug Fix	1 Hour	TB, CE	We used this time to look over our final website and make some small tweaks to how it was formatted and laid out as well as catch typos and other bugs.
